

Cruise from Officer to Thomson Dam via Moe, Walhalla, and then back to Officer via Moe again – 23-Mar-2014

If you get separated from the group, these notes should be enough information to catch up with us at the next stop.

If you're really in trouble, ring Ric on #####.

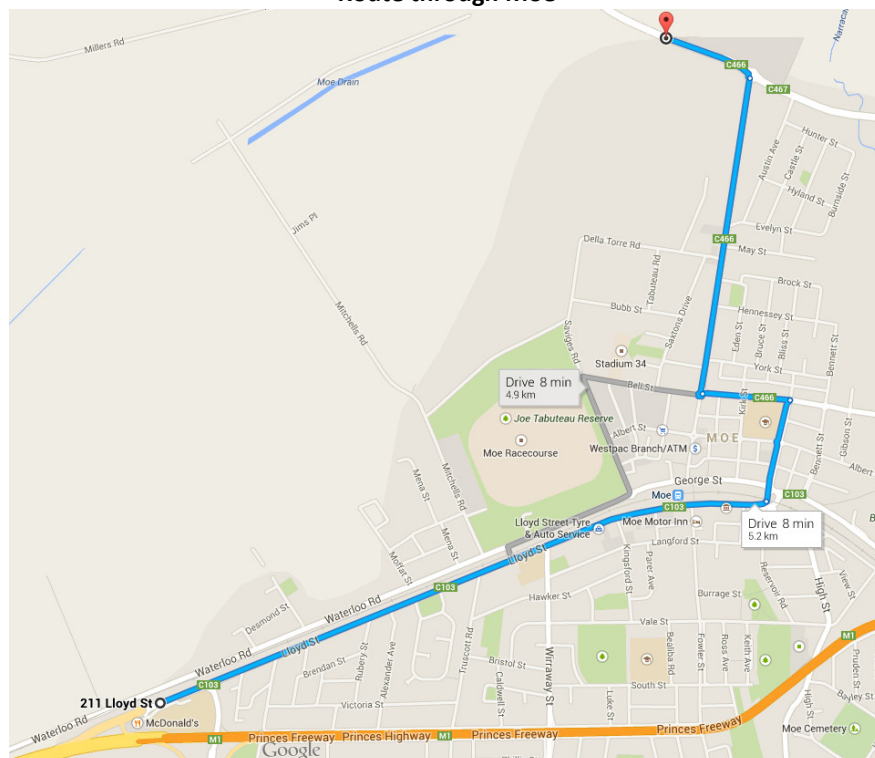

The first fifty minutes is just a cruise down the freeway to Moe. Ric will lead, and will NOT be breaking the speed limit. There's no need to stay bunched up, but make sure you don't miss the turnoff to Moe, 81km from the start point.

We will stop on the entry road into Moe, and make sure everyone has arrived before proceeding through Moe. See the detailed route through Moe below.

The first planned toilet stop is at the Thomson Dam at about 11am, i.e. 90 minutes after we start. The second is at Walhalla at about 12:30.

Point	Time	ODO	Speed limit	Instructions
A	9:30	0.0	100	Zero your odometer. Start at Officer BP petrol station. 65 Princes Freeway, Officer Enter Princes Fwy and head towards Moe.
B	10:20	81.0	70	Veer left onto C103 Moe exit We will pull over to the left, and stop, straight after the first roundabout coming in to Moe, and wait until everyone has caught up. (This is straight after the McDonalds)
	10:22	84.0	?50	Road crosses railway line. Straight through roundabout, towards Walhalla along Anzac St
